MUSHROOM CORN

These hearty textured, rounded flakes have a large surface area for coating. A great variety for making caramel corn and confections.

Mushroom corn has its largest volume when popped with a hot air popper.

~~~~~

\* Popcorn recipes can be found on our website:  
tietzfamilyfarms.com

Our popcorn is  
**NATURALLY**  
good.

LOCALLY  
GROWN IN  
WATERTOWN,  
WISCONSIN

**CALICO**

A colorful blend of taste and texture. Perfect for those who "Can't make up their mind"!

**SHAMAN BLUE**

Large puffs, tight clusters and partial pops. These crunchy white flakes have a subtly sweet natural corn flavor.

**WHITE HULLESS**

All popcorn has a hull, it is the outer portion of every corn kernel. When this variety pops, the hull shatters into smaller, LESS noticeable pieces. These tender flakes will melt in your mouth.

**RUBY RED**

Crispy, yet tender flakes with a little crunch. These small white flakes have a light nutty flavor.

**YELLOW**

Tender flakes with a stronger natural corn flavor. Healthy choice for a light snack.

These 5 butterfly varieties make up our **POPCORN SAMPLER**.
